The following is an examiner's statement of reasons for allowance: In response to remarks and claim amendments made in Applicant's Amendment filed on 08/21/2006, Applicant's argument is persuasive. Amended claims have been considered and upon conclusion of a comprehensive search of the prior art, such as cited references of Marler [US 6,822,874], Gross III, et al. [US 6,945,795] and Cannella, JR. et al. [US 6,144,561] fail to teach or suggest in combination or motivate the transition I/O board active structure as claimed invention. Therefore, the office indicates that the claims, as amended, are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
